Travelling east to Nagoya, you'll learn about the modern transformation of Japan into a manufacturing powerhouse, at the Toyota Commemorative Museum of Industry and Technology. Back to nature and culture, the tour then visits scenic Hakone and sacred Mount Fuji, before two days in Tokyo for sightseeing, shopping, or your choice of a diverse range of optional activities.

From June to August, it is the best time to view fresh spring greens and enjoy the warm climate.

The end of Oct through early Nov is the best time to see crimson leaves in Autumn.

Late March to early April is historically the best time to view cherry blossoms, but we can't guarantee that they will flower on these dates as they are highly seasonal and subject to climatic conditions.
